Your trusted partner providing concrete solutions to the high-tech industry across Europe since 2008.

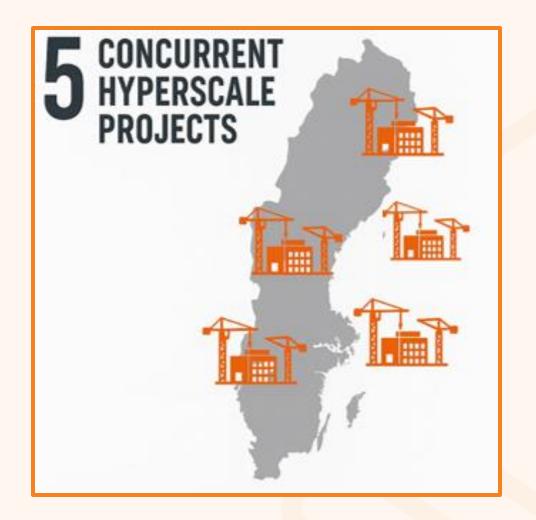

## 2024 Capacity & Scale

## **Numbers in Perspective**

# OLYMPIC SWIMMING POOLS

# CONCRETE MIXER TRUCKS

≈**4.800** 

### 129,300 m<sup>2</sup> of Slabs

= 18 full-size football pitches, roughly the size of Aviva Stadium

### 38,473 m<sup>3</sup> of Concrete

= 15.4 Olympic Swimming Pools = 4.800 Concrete Mixer Trucks

### BenBau's Story

#### **Irish Roots**

Founded by Benedict Mathews in Berlin, Germany in 2008

#### **European Presence**

Entities in Germany, Sweden and Denmark

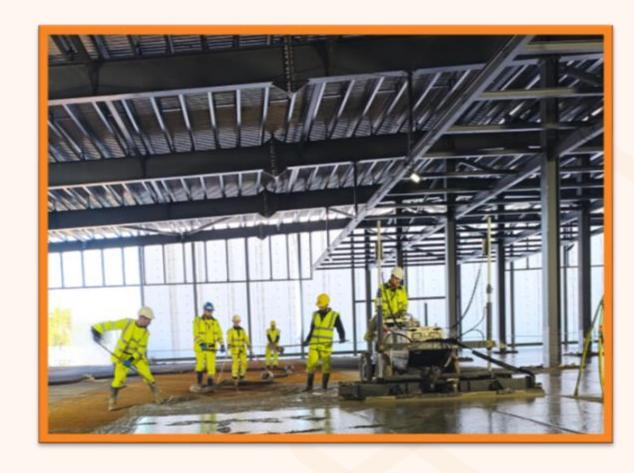

#### **International Workforce**

Over 450 team members across Europe

#### **Data Centre Expertise**

Specialised in structural and civil works for **high-tech** facilities and the **energy sector** 

### **Shared Values**

**Safety** 

**Quality** 

**Diversity** 

**Teamwork** 

Sustainability

**On-Time Delivery** 

### **BenBau's Strengths**

#### Flexible Partner in Europe

Headquartered in Berlin, BenBau has over 15 years of construction experience in Europe. Our **international, diverse** team with **20+ nationalities** is dynamic and flexible.

#### Safety

BenBau places a strong **emphasis on safety** and has more than 3 million hours worked without lost workdays, injuries or fatalities. **ISO45001** certified.

#### Quality

BenBau meets and exceeds the challenging requirements of complex builds required for the tech industry. **ISO9001** certified.

#### **Efficiency**

BenBau prides itself in always achieving or improving agreed timelines. We can take on **accelerated timelines**.

#### **Budgeting**

Proven ability to deliver **accurate budgets** and stay within budget, drawing on extensive technical and commercial experience.

#### **Design & BIM**

BenBau's **in-house design and BIM** team enables seamless integration of planning and construction.

## **BenBau's Expertise**

All undertakings are backed by strong design and BIM capabilities. We also have a wide network of other seasoned subcontractors with whom we can tackle many CSA packages.

## **Design & BIM Excellence**

Our full in-house design are a real value add, offering:

### Accountability & Ownership

- In-house design control
- Single point of responsibility

#### **Efficiency**

- Seamless design-to-delivery workflow
- Accelerated project timelines

### **Streamlined Coordination**

- Improved communication
- Data-driven design decisions

### Design Efficiency

=

### **Programme Efficiency**

# **Data Centre Projects**

### Multiple Hyperscale Data Centre Projects in Sweden

Scope of works include:

- FM2/High Tolerance Slabs
- External Security Fencing
- Acoustic Barriers
- Multiservice Work

## **Energy Sector Projects**

#### **Current project in Hamburg, Germany**

Scope of works include:

- In-situ substructures
- Structural R/C frames
- Internal slabs
- External concrete paving

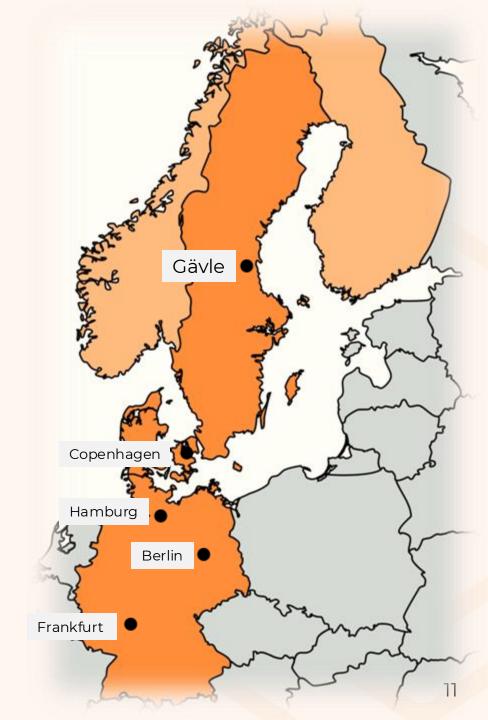

### **Next Steps**

#### We offer future collaboration opportunities in:

- Hyperscale Data Centers
- Energy Sector Projects

BenBau is here to help, offering concrete & construction services across Germany, Sweden, Denmark, Norway and Finland.

Here to support you in your construction needs.
